

PART-TIME LABORATORY TECHNICIAN

Water Resource Recovery Facility

POSITION DESCRIPTION

The Part-Time Laboratory Technician is responsible for performing routine laboratory analyses to determine wastewater quality and tests in relation to the Facility's NPDES Permit for a Class IV 9.0 MGD Activated Sludge Facility.

EDUCATION

High School Diploma or equivalent. Prefer some secondary education in chemistry and mathematics with laboratory experience and familiarity with wastewater treatment technology.

TRAINING/SKILLS

- Ability to operate laboratory instrumentation.
- Ability to generate accurate and precise analytical data.
- Computer competency, including Excel and Word.
- Basic knowledge of wastewater analysis and sample collection methods.
- Ability to understand the concepts of the laboratory's QC/QA program and implement concepts.

DESIRED QUALIFICATIONS

- Have completed one year at a 4-year college or 2 year college.
- Pursuing a degree in Environmental Science, Natural Resources or other environmental related field of study.
- Basic knowledge of municipal wastewater analysis and sample collection methods through experience or schooling.

HOURS

Regular Part-time; 20 hours per week
(Saturday and Sunday – 16 hours; 4 hour block of time during regular work week)

SALARY

\$11.50/hour
Pro-rated accrued leave benefits provided.

LOCATION

Water Resource Recovery Facility
500 S. River Road, West Lafayette, Indiana
